1.	L.12	p. 22	Under the heading Organizational Conflicts of Interest (OCI), subparagraph B of the instruction states the response shall include “A description of the offeror’s approach to...ensuring compliance with contract terms relevant to...limitations on future contracting.”	We could not find in the RFP any terms relevant to future contracting. Please clarify.	The reference to limitations on future contracting was inadvertently included, and will be deleted via an RFP amendment.
2.				What is the anticipated contract start date?	L.13 COST VOLUME, para (2)(f) PHASE-IN PLAN incorrectly indicated a phase-in date of October 2011. The date will be amended to reflect December 2011.
3.	Attachment A (SOW), Section 3.1.5	Paragraph 3; p. 4	Under “3.1.5 Science data acquisition, archiving and distribution...,” the third paragraph states: “The Contractor shall maintain files and records of all data received and/or processed, checking and maintaining data inventory, integrity and gaps, set up and maintain....”	Is the intent of the requirement that the Contractor will check for gaps and maintain a record, notably such that the data inventory will reflect gaps detected in the data?	Yes.
